

JOTHI DHINAKARAN J M

Computer Science Engineering Student | 9791700588 | jothidhina57@gmail.com | [Linkedin](#)

Motivated Computer Science Engineering student with strong problem-solving and logical thinking skills, along with a solid foundation in core computer science subjects. Passionate about web development and software engineering. Seeking an internship opportunity to apply programming skills, gain industry experience, and contribute to real-world software development projects. Beginner in Full Stack Development with hands-on project experience.

EDUCATION

B.E., Computer Science and Engineering, 2 nd Year	Sep 2024 - Present
Government College of Technology, Coimbatore.	CGPA :8.48

SKILLS

Programming: Java, C
Web Technologies: HTML, CSS, JavaScript, PHP
Database: MySQL (DDL, DML, DCL, TCL)
Core Skills: Problem Solving, Logical Thinking, Idea Development, Quick Learner & Adaptability
Core Subjects: DSA, Design and Analysis of Algorithms, Database Management System, Theory of Computation, System Programming and Operating Systems (SPOS)

PROJECTS

Pharmacy Management System (Mini Project)
Technologies Used: HTML, CSS, JavaScript, PHP, MySQL

- Developed a web-based application to manage pharmacy operations efficiently
- Designed responsive frontend using HTML, CSS, and JavaScript
- Implemented backend functionality using PHP
- Integrated MySQL database for structured data storage and retrieval
- Successfully connected frontend and backend in a localhost environment

EXPERIENCE / ACTIVITIES

Smart India Hackathon (SIH) – Participant
Project Topic: Attendance Management System

- Led and coordinated a team in a national-level hackathon, guiding problem analysis and solution design
- Contributed to developing an automated attendance management system for colleges
- Collaborated with team members to improve efficiency by reducing manual attendance tracking through automation ideas

CERTIFICATIONS

Workshop on “Mastering NVIDIA GPUs”

- Learned fundamentals of GPU architecture and parallel computing
- Gained exposure to performance optimization using GPUs

ADDITIONAL INFORMATION

- Strong ability to understand concepts and generate practical ideas
- Passionate about software development and web technologies
- Highly adaptable and eager to learn new tools and frameworks
